

Hands-on training day in Relative Analgesia / Inhalation Sedation

Ease your clinical burden and attract new patients

Win new patients in the downturn

Offer something new and different!

Remember satisfied and happy people refer more great people to you!

Dr. Richard Charon BDS has been running, one-day Hands-on courses in Newbury, Berks & Wexford and Dublin since 2003.

- A dentist has a duty to manage patient's anxiety. Failure to do so may have dento-legal ramifications!
- In a downturn, people with dental neglect through fear will always find a way forward IF you can offer one!
- Relaxation of GDC regulations governing DCPs will allow Therapists and possibly eventually Hygienists to administer RA once they have been trained!

Speaker and Course Director:

Dr. Richard Charon BDS

With 30 years experience using R.A.

He is a member and mentor for both SAAD and DSTG

Richard has been running his hands-on RA training courses since 2003.

The one day Hands-on course aims to:

- Reduce your stress levels in dealing with anxious patients.
- Provide a detailed training day in the background theory and successful practical application of RA / Inhalation Sedation.
- Present case studies, live and video patient demonstrations together with 30 years of experience.
- Open up a wide range of treatment options for anxious and gagging patients- a whole new experience!
